## a word from suzanne

I thoroughly enjoy working with buyers and sellers in all aspects of residential real estate! Years ago, I worked in property management for a large commercial real estate company in the Birmingham area. During that time I realized that working in real estate was fascinating, challenging and rewarding.

For several years, I took time away from working in real estate to raise my two daughters. My home and family are my greatest reward at the beginning and ending of each day. When I returned to real estate I chose residential sales. It gives me great pleasure to serve my clients by helping them sell and find their next home while making their transition and transaction as smooth as possible.

RealtySouth is a fantastic company that gives me the resources to serve my clients with all aspects of the real estate transaction. My goal is to be authentic with everyone that I work with. It is my job to make your home search and sale the best experience possible. I want your home to be your own place of reward at the beginning and end of each day.

*My love for my own home and family is the source of my deep desire to assist others in finding their own home place. I know that your home is so much more than curb appeal, price and location. It is also your retreat for you and your family, where you will live, have celebrations and make memories.*
